OBJECTIVE

Third-year B.Tech Computer Science student with hands-on experience in building full-stack web applications using the MERN stack and strong foundations in Data Structures and Algorithms. Seeking software engineering roles to contribute to scalable, user-focused systems and solve real-world problems.

EDUCATION

Charotar University of Science and Technology

Gujarat, India

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

- CGPA: 8.10
- Class XII: 72%

SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks / Libraries: React, Node.js, Express, Mongoose, Tailwind CSS

Databases: MongoDB, MySQL

Tools / Platforms: Git, GitHub, VS Code, Postman

Concepts: Data Structures & Algorithms, Object-Oriented Programming, REST APIs, Authentication & Authorization

INTERNSHIP

Machine Learning Intern (Unpaid)

May 2025 – June 2025

Vaishnav Technologies

- Implemented basic machine learning workflows including data preprocessing and supervised learning using Python
- Worked with real-world datasets to understand feature preparation and model evaluation techniques
- Applied machine learning concepts through guided tasks, gaining exposure to practical problem-solving scenarios

PROJECTS

ElectroTrack — Full Stack E-commerce Platform

MERN Stack (Next.js, TypeScript, MongoDB)

- Built a full-stack e-commerce platform with secure authentication, cart persistence, and payment integration
- Implemented Google OAuth, email verification, and session management to enhance security and onboarding
- Developed core user-facing modules including dashboard, product management, and delivery workflows as part of a team
- Designed an admin dashboard for analytics, transaction tracking, and customer communication
- Optimized frontend performance with responsive design and accessibility considerations

PARTICIPATION

Participated in Hack-NU-thon 6.0 (Reve Track) organized by Nirma University, focusing on innovation, problem-solving, and teamwork

CERTIFICATES

Machine Learning with Python — IBM (Coursera)

MERN Stack Front to Back: Full Stack React, Redux & Node.js — Coursera (Packt)

Data Structures and Algorithms using Java — NPTEL (IIT Kharagpur)

Hashgraph Developer Course — The Hashgraph Association
